Conditions of Sale

Breeding stock are offered for sale under the National Beef Association's standard terms and conditions of sale and both purchasers and sellers are advised to acquaint themselves with the breeding warranty claim time limits. Copies of this warranty are available from the Auctioneers.

Attention is drawn to the following point:

If it is found impractical to try the female fairly within the time limits stated, due to the purchaser's normal calving programme, the purchaser shall (at the discretion of the vendor), **ON THE DAY OF THE SALE**, or within the next seven days, give the auctioneer notice **in writing** of the month in which it is proposed to commence using the bull/running the heifers with the bull.

LEVY OF 2% TO THE LUING CATTLE SOCIETY. THE SALE WILL BE CONDUCTED IN GUINEAS.

CATALOGUE

The Owner of each Lot is the Breeder unless otherwise stated.

"L" before the Herd Book number indicates Pedigree Luing Male. "P" indicates Pedigree Luing Female. "A" indicates Appendix "A" Female. "B" indicates Appendix "B" Female.

Registered Sim-Luings (indicated by "C" before the herd book number) are out of pedigree or A-grade Luing cows, sired by a registered Simmental bull.

HEALTH INFORMATION

The Luing Cattle Society was the first to run a BVD-safe sale with its Premier Sale in February 2007. Since 2010 all official Luing Cattle Society Sales, including this one, are run under the same health rules and are therefore BVD-safe. To qualify for this, all stock must come from herds which are members of a CHeCS accredited health scheme (for this sale all herds are in one of the SAC Premium Cattle Health Scheme or the HiHealth Herdcare Scheme) and are either BVD accredited free or the sale stock have tested negative for the virus. Additionally all stock forward are double-vaccinated against BVD. For herds testing for Johne's, you will notice new Risk Level categories are displayed; these are defined as follows:

Status	Level
Risk Level 1	This is directly equivalent to the previous CHeCS Accredited Free status. Level 1 status is associated with the lowest risk source when buying in stock. Health plan required.
Risk Level 2	Herds with level 2 status have had one or two clear consecutive herd tests. Health plan required.
Risk Level 3	Herds with level 3 status have reactors identified at the annual herd test, but these are no more than 3% of animals tested. Health plan required.
Risk Level 4	Herds with level 4 status have reactors identified at the annual herd test, and this amount to more than 3% of the animals tested. Health plan required.
Risk Level 5	Any herd that is not carrying out the required testing or does not have a suitable health plan in place falls into this category. Level 5 status is considered to be the greatest risk source when buying in stock.

UNITED AUCTIONS / LUING CATTLE SOCIETY PRIZES FOR BEST PAIRS

Cash awards will be presented during the sale for '*The Best Pair of In-Calf Heifers*' in both Luing and Sim-Luing sections and '*The Best Pair of Bulling Heifers*' in both Luing and Sim-Luing sections.

Judge: Miss S Marshall & Mr K Marshall, Concraig, Aberdeen.

Pedigree Luig Bulling Heifers

SAC Premium Cattle Health Scheme		TB clear January '17 (4 yr testing)
BVD accredited free & vaccinated 13/04/18 & 07/05/18	Johne's Risk Level 3	
Lepto vaccinated 13/04/18 & 07/05/18		
<p>"This herd is a member of the Premium Cattle Health Scheme run by SAC and has been pro-actively engaged in controlling Johnes Disease, over and above the requirements of the scheme, for 20 years. There have been no clinical cases within the herd for many years now although the presence of a single positive in last years test means that the herd is a risk level 3. In the last 3 years a total of 668 individual blood tests have been carried out with only 2 positives. None of the animals presented for sale have a history of Johnes in the family." Graeme Richardson, Thrums Vet Group.</p>
